

MOIN SAYYAD

Full Stack Developer | React.js | Node.js | MongoDB | MySQL
sayyadmoin81@gmail.com | +91 7517847886 | Ahmednagar, Maharashtra, India | Open to Remote

PROFESSIONAL SUMMARY

Enthusiastic Full Stack Developer and Computer Engineering graduate with hands-on experience in building end-to-end web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in developing RESTful APIs, responsive frontends, real-time features, and database management. Adept at taking ownership of features from design to deployment with clean, maintainable code.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind, React Router, Context API, Axios

Backend: Node.js, Express.js, Java, REST API Design, OAuth 2.0, JWT Authentication, bcrypt, Socket.IO

Databases: MongoDB (Mongoose), MySQL schema design, CRUD operations, indexing, query optimization

Tools & Platforms: Docker, AWS, Git, GitHub, Postman, npm, VS Code, Netlify, Vercel.

Languages: Python, Java, C++

WORK EXPERIENCE

Full Stack Developer Intern

Dec 2025 – Feb 2026

A2Z IT HUB (On-site)

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js and MongoDB
- Integrated REST APIs and implemented JWT-based authentication.
- Collaborated using Git/GitHub and followed agile development practices.
- Tested, debugged, and optimized application performance.
- Participated in end-to-end development from design to deployment.

Projects

Crypto P2P Merchant Dashboard

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Socket.IO, Bootstrap

- Built a full-stack peer-to-peer crypto merchant dashboard enabling buyers and sellers to manage trade listings, initiate transactions, and track order status in real time.
- Developed secure RESTful APIs in Express.js with JWT-based authentication, role-based access control for merchants and admins, and bcrypt password hashing.
- Designed MongoDB schemas using Mongoose for users, trade listings, transactions, and wallets with relational references and optimized query performance.
- Built a dynamic React.js dashboard with reusable components, protected routes via React Router, and Context API for global state; integrated all APIs using Axios.

AI Interview Prep SaaS

Tech Stack: React.js, Node.js, Express.js, MongoDB, OpenAI API, JWT, Bootstrap

- Developed a SaaS platform that generates role-specific interview questions using the OpenAI API
- Integrated OpenAI API to dynamically generate questions by role, experience level, and tech stack
- Built a multi-tier subscription model with JWT-based authentication, password hashing and middlewares.
- Designed MongoDB collections for users, sessions, questions, and responses using Mongoose; implemented indexing and query optimization for fast session retrieval.
- Created a responsive frontend with an interactive interview interface, real-time AI feedback display, answer history, and performance analytics dashboard.

Education

Bachelor of Engineering – Computer Engineering

Apr 2021 – Jun 2025

Savitribai Phule Pune University, Pune, Maharashtra
